### **Application Information**

| Application: (Describe the application in    |          |
|--|----------|
| which the scale will be used.)               |          |
| Scale Objectives: (Inventory Control,        |          |
| Batching Control, Blending Control)          |          |
| Flow Rate Range Requirments: (i.e 3.5        |          |
| to 10 tons per hour or50 to 130 pounds       |          |
| per minute)                                  |          |
| Measurement Accuracy Required:               |          |
| (within xx% of reading)                      |          |
| Data Requirements: (Material Totalizer,      |          |
| Material Flow Rate, Tons or Pounds per       |          |
| minute)                                      |          |
| Data Display Location: (Where does data      |          |
| need to be seen or modified.)                |          |
| Scale Location: (Will be scale be            |          |
| physically located in one location or will   |          |
| be moved around based on job needs.)         |          |
| <b>Describe any Environmental Conditions</b> |          |
| (caustic, explosive, high temperature,       |          |
| temperature variations)                      |          |
| 1) Hours of Operation/Day                    |          |
| 2) Days of Operation/Week                    |          |
| 3) Weeks of Operation/Year                   |          |
| -  |          |
|  |          |
| Material Info                                | ormation |
|  |          |
| Materials Being Measured: (fly ash,          |          |
| hydrated lime, grain)                        |          |
| Material Density: (lbs/cubic foot)           |          |
| Material /Environment Temperature            |          |
| Ranges:                                      |          |
| Material Moisture % Range                    |          |
|  |          |
|  |          |
| End User Signature:                          | Date     |
| and/or                                       |          |
| Representative-Dealer Signature:             | Date     |
| T 25   |          |

#### **Material Flow Information**

| <b>Describe Conveying Equipment and</b>        |      |
|--|------|
| Transitions gravity feeding the Flow           |      |
| Scale  |      |
| <b>Describe Conveying Equipment and</b>        |      |
| <b>Transitions evacuating the Flow Scale</b>   |      |
| Describe any machinery and processes           |      |
| creating vibrations transmitted to the         |      |
| Flow Scale.                                    |      |
| Describe any air Flows through Scale or        |      |
| Air Pressures above or below                   |      |
| atmospheric. Empty Vanes of an Air             |      |
| Lock can introduce pressure into the           |      |
| flow scale chamber                             |      |
| Describe Flow Rate Consistency (i.e.           |      |
| Flow rate remains consistent. Flow rate        |      |
| changes significantly when feed mills are      |      |
| brought on line or taken off line or           |      |
| material feeding scale bridges regularly       |      |
| causing erratic flows.)                        |      |
| <b>Describe Environmental Conditions For</b>   |      |
| the Scale and the Electronic Integrator        |      |
| (indoors, out doors, hot, cold, windy, rain,   |      |
| humidity, hose down area, dusty, dirty)        |      |
| Describe any Material Flow Ability and         |      |
| <b>Problem Considerations</b> (sticky, chunky, |      |
| high moisture content, bridging, choking)      |      |
| Describe any Maintenance                       |      |
| Considerations (to be washed down,             |      |
| Flow Scale Adjustment Access ability)          |      |
|  |      |
|  |      |
|  |      |
|  |      |
|  |      |
|  |      |
| End User Signature:                            | Date |
| and/or   |      |
| Representative-Dealer Signature:               | Date |

#### **Misc. Considerations**

| Any other Special Considerations (Food        |      |
|---|------|
| Grade, Load cell accessibility adjustment     |      |
| problems, Inner scale cavity accessibility    |      |
| adjustment problems - Inspection door         |      |
| rearrangement)                                |      |
| Delivery Needs ('Need By' date)               |      |
| <b>Material Calibration Considerations</b>    |      |
| (how do you plan on capturing a               |      |
| measured weight run through the flow          |      |
| scale so as to compare to captured            |      |
| material weighed on separate scale).          |      |
| Option: Calibration Slide Gate,               |      |
| Calibration Divert Stand.)                    |      |
| <b>Installation Considerations</b> (Excessive |      |
| vibration or rocking,. flow scale height,     |      |
| size weight restriction, Scale Discharge      |      |
| Square to Round Transition option, Scale      |      |
| Discharge Divert Chute option, excessive      |      |
| air flow through the scale – airlock option   |      |
| requirement)                                  |      |
| <b>Electrical Considerations</b>              |      |
| *Scale integrator – analog output – 4-20      |      |
| ma  |      |
| *Automatic Blending Control                   |      |
| Mechanical Considerations                     |      |
|   |      |
| *Discharge Tapered Transition – Square        |      |
| to Round.                                     |      |
| *Calibration Jam Gate – 16" Square to         |      |
| 10" or 12" (to be mounted under               |      |
| customers discharge auger)                    |      |
| *Scale Discharge Divert Chute (typically      |      |
| scale is mounted on top so product            |      |
| discharges straight through or is diverted    |      |
| to a container used for calibration)          |      |
| *Turnkey Service Requirements                 |      |
| End User Signature:                           | Date |
| and/or  | Dutc |
| Representative-Dealer Signature:              | Date |
